

ULTRADRIVER™

Non-ratcheting Screwdriver
Lifetime Warranty

Feature

- Designed, patented and made in U.S.A.
- Three sided ergonomic inner handle made of Butyrate
- Soft vinyl, motorcycle grip outer handle
- Drive shaft made of heat treated, nickel plated steel
- Bits made of heat treated chrome vanadium steel
- Ball-detent bit design (non-magnetic)
- Bits are stored in shaft end of driver handle
- Available in various bit and bit/nutdriver combinations
- Bit replacement program
- Sold in marketplace in excess of 20 years
- Lifetime warranty on screwdriver

Benefit

- Confidence of purchasing a high quality, made in U.S.A. product
- Handle geometry provides comfortable grip for all hand sizes, Butyrate material provides strength, durability and abrasion resistance for long life
- Comfortable, non-slip gripping surface
- Strong, corrosion resistant drive shaft
- Heat treated steel provides strength to withstand high torque and resist wear
- Non-magnetic design allows use on sensitive electronics (will not damage electronics)
- Bits are easily accessible and always visible
- Combinations designed to suit a wide range of application needs
- Customer can replace broken bits and/or add on to bit set at a reasonable cost
- Confidence of purchasing a time tested, market proven design
- If screwdriver found to be defective it will be replaced at no cost
